

Dear xxxx (Member of Parliament)

I/We are writing to express great concern about the growing problem of rising drop off and pick up fees at UK airports.

Recent significant fee price increases at a number of airports, more complicated arrangements for drop off and pick up at airports, and sometimes the bureaucracy of having to pre-register bookings are all contributing to major frustration for passengers because our arrival at and departure from UK airports is less and less of a smooth process.

Our exasperation is more pronounced when we find out that drop off and pick up charges are not levied at most airports across Europe and further afield internationally!

Please find attached a copy of the newly released 'Drop the Drop Off Charges' White Paper from the Business Travel Association. The White Paper asks for an urgent Government Review, by the relevant Department for Levelling Up, Housing and Communities into how this situation has developed and whether these fees should be dropped altogether by airports.

If you share our sense of disappointment at these major backwards steps in the experience of UK airline passengers, we would like to ask you to raise your concerns about drop off and pick up charges in Parliamentary Questions in the House of Commons to the Prime Minister, to the Secretary of State for Levelling Up, Housing and Communities, and to other relevant Ministers.

I hope that you will support us in campaigning to end these unnecessary charges.

Many thanks and best wishes
