

DiamondAir - here to help

- DiamondAir can fast track & assist Clients who are still flying for essential travel & for repatriation customers, thus minimising dwell time & the stress of travelling under current conditions
- We can offer Airport By Invitation services in over 100 destinations for travellers who wish to avoid the passenger terminals altogether & enjoy their own private terminal on scheduled flights
- We are still offering 24/7 support in 700 airports & train stations globally, our operation is still business as usual
- Every little helps! We are providing commission/additional revenue to the TMCs, for those still travelling, whilst we help Clients during their respective trips
- Don't forget the little guys in the industry! Just 2 bookings a month from each TMC would help to sustain our business & the jobs of our 70+ employees!
- We would like to offer a 50% discount for any BTA members with family members travelling to get home
